- Active Campagne
- Copilot
- ShopConnect
- DataFeedWatch

Profile

I am Ovi, a Web Developer at Shoepassion GmbH, specializing in frontend development with solid backend experience. I create flexible, user-friendly web applications and tackle technical challenges with clear, well-structured code. Currently, I am deepening my knowledge of React.js and modern frontend frameworks to stay up to date with the latest technologies.

Professional Experience

Shoepassion GmbH

Technologies & Responsibilities

- Frontend and backend development in an e-commerce environment
- Development of Python scripts for automation, data processing, and image editing
- API integrations, including using the OpenAI API for automated translations in Shopify
- Development of ETL processes to prepare data for internal analyses (e.g., Power BI)
- Customization and integration of Shopify apps, as well as development of individual features
- Working with Shopify, WordPress, Pixi (Warehouse Management System), and Plytix (Product Information Management)
- Integration of external tools such as Klaviyo and Lugis Box
- Technical testing, optimization, and continuous improvement of internal systems

Additional Responsibilities

- Close collaboration with various departments
- System integration and IT support within a small team
- Setup of workstations, user accounts, and technical support for new employees
